

ADDENDUM FIVE

DATE: March 4, 2026

TO: All Respondents

FROM: Sheila Brown, Procurement/Contract Administrator

RE: **ADDENDUM #5 Question and Answer and Clarifications**

TYPICAL BOLLARD TYPE: The typical bollard specified is BollardUSA, 'Classic' series, Product No. 150-GSF with Fluted Center shafts (not Product No. 150-GS with Plain Center shafts).

NEW FENCE IN FORMER PLAY AREA: There is no longer an existing fence around the 'Play Area'. Therefore, include extending a new fence (in a straight line from the existing Admin/Rental Office building to the existing Community Center building in the Base Bid. Keep the pedestrian gate in the fence as shown on Enlargement 'D.'

We are grateful for your interest in doing business with our Agency and we look forward to receiving a bid from your company.
